

Experience the Future with Innovative Technology:  
Intelligent Automation for Compliance and Real-Time Reporting

# Unit Dose Tracking Solution

# Disposable, Automated Single-Dose Packaging Resolves Compliance, Adherence and Reporting Issues

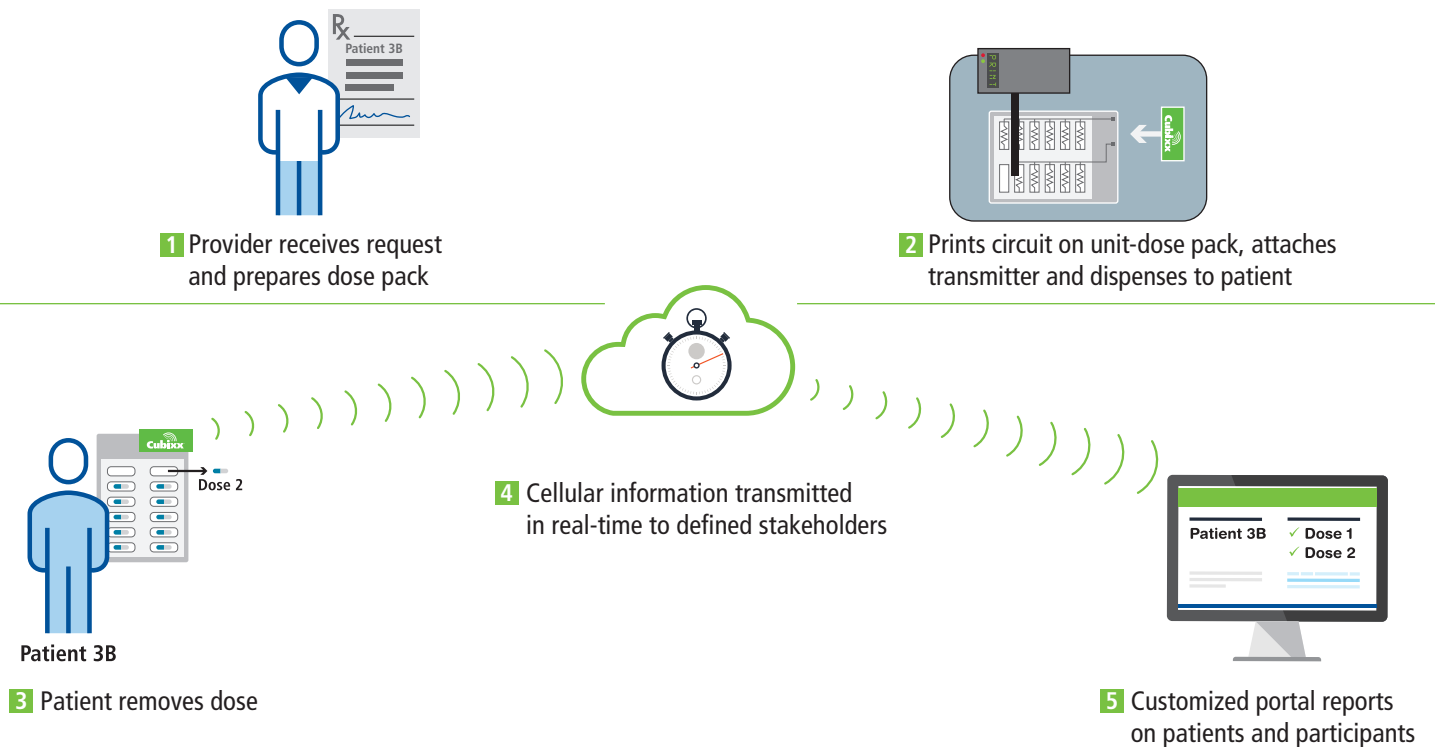

## Our patient-centric innovation records and communicates adherence information in real-time:

- » Transforms adherence issues into cost-efficient exception management
- » Self-contained technology at the provider level with 3-D printer and minimal cost
- » User-defined reporting functions collect data relevant to reporting needs
- » Disposable, cellular connectivity means no patient record-keeping, diary or inconvenience
- » Scalable to stakeholder needs
- » Online portal access to stakeholder information

## Cost-effective convenience

✓	No gadget return
✓	No network setup
✓	No additional structure
✓	Not an app
✓	Nothing required from patient (no diary or record keeping)

## How it works for any provider
